# The Email Marketing Tool Kit Usage Instructions

Hi there and welcome to **The Email Marketing Tool Kit**. To help you get through this tool kit and use it to its fullest ability I recommend that you read through EACH of the 10 different tools completely. I have put them in chronological order in the way that you should use them.

Many of the tools will teach you what you need to know to be able to use the other tools (*like the planners and the checklists*), so that's why I tell you to go through EVERYTHING first before using any one thing.

Email marketing and list building can be the most powerful things you use to make money in your business, so use what I've given you here to learn from and make some serious money with it!

To your success!
