**The 50-piece toolkit to start, scale and
sustain your online business!**

Start Here - The Product Creation Tool Kit Usage Instructions

Hi there and welcome to **The Product Creation Tool Kit**. To help you get through this tool kit and use it to its fullest ability I recommend that you read through EACH of the 10 different tools completely. I have put them in chronological order in the way that you should use them.

The first tool is a general overview, and all additional tools will help you be able to use the first tool and actually create an infoproduct of your own.

Creating and selling your own infoproducts (*either directly to people or as your own content you sell rights to*) is incredibly profitable, but first you must learn how to create those infoproducts and that's exactly why I've created this tool kit for you. 😊

The last part of product creation is setting up a sales letter to sell your new infoproduct. I've included a template as Tool #10, so once your product is created, you can get to work creating the sales page for it and having yourself one step closer to making money!

To your success!
